Who we are?

Monclova, Coahuila Mexico

www.linkedin.com/in/arturrg

We are a **network of 32 specialized manufacturing shops** strategically located north Mexico close to the border with Texas, each with different capabilities, certifications, and technical expertise. Together, we serve key industries including **automotive, rail, mining, heavy trucks, food processing, and industrial equipment.**

Our mission is clear: **to take Mexican manufacturing beyond borders**, exporting world-class products and solutions to the **United States, Canada, and Europe.**

This network was founded and led by **Arturo Rodríguez**, a seasoned executive with **over 30 years of experience** in operations, quality, and management across multiple industries. Through his leadership, this alliance was built to **strengthen regional competitiveness, activate local economies, and transform organizational culture** through excellence, innovation, and customer service.

We believe in building long-term partnerships based on **trust, performance, and continuous improvement** — positioning our suppliers as global players ready to meet international standards.
